

URCHFONTS BRANCH

COMING UP IN THE NEW YEAR 2019

THE CREATION AND MANAGEMENT OF THE WESSEX LANDSCAPE

By HADRIAN COOK

'Wessex' is famed for its woods, forests, reclaimed marshlands, watermeadows, rivers, heathlands, grasslands and coast.

This course will be concerned with the interface between natural resources (geology, soils, climate, water and ecology) on the one hand, and human activity on the other

This will be a **six week Tuesday morning course** running from 10.15am to 12.30pm held in the Conference Room at Urchfont Village Hall commencing Tuesday 26th February running each consecutive Tuesday ending on 2nd April

As always, no previous experience is needed

All are welcome

Cost £50
